FORM 6: Project Summary

Please provide a complete project summary. Reference the goals, objectives, and/or recommendations from the regional solid waste management plan that apply to the project, and how the project will assist in implementing the plan. Refer to the application instructions when completing these forms. If necessary, attach additional pages for each form.

Form 6a. Project Description *(add additional pages as necessary)*

The City of East Tawakoni has a community cleanup in Spring and Fall of each year for all its water customers.

We provide dumpsters behind City Hall all day on Friday and half a day on Saturday from Duncan Disposal at our expense.

The Citizens are aware of these cleanups and take full advantage to get their properties clear of debris and unwanted items.

There is always someone there to recycle all our metal.

Form 6b. Project Cost Evaluation (add additional pages as necessary)

Provide an evaluation of the costs associated with the proposed project. Explain how the total related costs of the proposed project were adequately considered; compare project costs to established averages or to normal costs for similar projects. Present the costs in unit terms, such as cost per ton, cost per customer, or cost per capita, as applicable. Describe any measurable costs savings, or reasonably justified costs of the project.

During our last cleanup we used 4 (40 yard roll off) dumpsters, 1 rear loaded trash compactor rented, delivered and picked up by Duncan Disposal. Using the same equipment for the next cleanup the cost would be \$3,073.68 total.

Our cost for next cleanup would be
\$108.11 each for delivery
\$460.01 to haul away each dumpster

568.12 x 4 dumpsters =	\$2,272.48
Rear loader trash compactor \$135.00 del	
5 hours on Saturday only \$365.00	500.00
TOTAL	\$2,772.48
24 Man Hours	227.52
GRANT TOTAL	\$3,000.00

Form 6c. Level of Commitment of the Applicant (*add additional pages as necessary*)

Provide information related to the Applicant's level of commitment to preferred solid waste management practices. If the proposed project is an ongoing service, demonstrate the ability to sustain the program beyond the term of the grant. Explain the extent to which the appropriate governing bodies support the proposed project.

List any previously demonstrated commitment to preferred solid waste management practice, such as implementing other solid waste management projects, involvement in a local or subregional solid waste management plan or study, or membership in the TCEQ's Clean Texas Program.

If the proposed project has received previous grant funding under this program, explain to what extent the proposal involves expansion of current services or operations; present quantifiable documentation of the success of the project in order to warrant further funding. Demonstrate a good record of past grant contractual performance.

We received a solid waste grant for 2010. We hauled away four 40 yard roll off dumpsters and one rear loader full of debris. We had two 16 ft trailers of scrap metal for recycling. This is done twice a year for our water customers.

Form 6d. Scope of Work (See application instructions. Add additional pages as necessary)

Provide a work program with a schedule of deliverables for the proposed project or program. The work program with the schedule of deliverables will be considered the Scope of Work to be performed under the contract agreement, if funded. Once the details of the work program have been negotiated with the Applicant and approved by the COG, the work program will be entered into the grant contract.

As concisely as possible, for each task of the proposed project, describe the major steps or activities involved, identify the responsible entities and establish a specific timeframe to accomplish each task. The scope of work for the project or program must include:

- Detailed purpose and goal of the project (should be consistent with implementing the goals, objectives, and recommendations from the regional solid waste management plan, as stated in the project description on Form 6a).
- Specific task statements with responsible entity identified
- List of deliverables/products/activities under each task
- Schedule of deliverables

Spring and Fall dates were selected last year and the citizens were made aware of the dates through notice on their water bill and announcement at city functions. Arrangement was made with Duncan Disposal to place containers at selected site in our City. The City of East Tawakoni intends to carry out this program again this year.
