

# ENTER TO WIN A FORD ESCAPE HYBRID SUV IN THE DRIVE CLEAN ACROSS TEXAS SWEEPSTAKES

## DRIVE A CLEAN VEHICLE AND WE'RE ALL WINNERS

Driving an air-friendly vehicle is one of the best things you can do to reduce air pollution. Not only do you save money on gas, you're also taking a big step to reduce tailpipe emissions.

Go to [www.DriveCleanAcrossTexas.org](http://www.DriveCleanAcrossTexas.org) to register to win a brand new 2009 Ford Escape Hybrid SUV and to find out about other simple things you can do to help clean up the air in Texas.

**ENTER TODAY. NO SPAM TOMORROW.**  
Entries will be accepted through September 20, 2009.

  
[www.DriveCleanAcrossTexas.org](http://www.DriveCleanAcrossTexas.org)

You must be at least 18 years old, have a valid Texas driver's license and be a Texas resident to win. For complete Sweepstakes rules, go to [www.DriveCleanAcrossTexas.org](http://www.DriveCleanAcrossTexas.org).

# LITTLE THINGS ADD UP TO CLEANER AIR

In some places in Texas, emissions from cars and trucks make up half of all the air pollution. If all of us do just a little to clean up the air, we'll all breathe a lot easier.

## KEEP YOUR VEHICLE MAINTAINED PROPERLY

Change your air and fuel filters regularly, keep the correct pressure in your tires and get your vehicle serviced when recommended by the manufacturer. A poorly maintained vehicle can release 10 times more pollution than one in top condition.

---

## DRIVE LESS

Share rides, take public transportation, ride a bike, walk and combine errands. The less we all drive, the better it is for the environment.

---

## DRIVE THE SPEED LIMIT

When you stick to the speed limit, you use less gas and your vehicle puts out fewer emissions. For every 5 miles an hour you drive over 60 mph, it's like paying an extra 20 cents a gallon.

---

## AVOID IDLING

Idling vehicles waste gas and add emissions to the air. Why not skip the drive-thru, park and go inside? It'll mean a little exercise for you and a little less pollution for all of us.

---

## DRIVE A CLEAN VEHICLE

When it's time to get a new vehicle, consider getting one that pollutes less. It'll keep the air cleaner and save you money at the pump.
